### FEUD LEADS TO KILLINGS

Shooting Grows Out of Underworld Syndicate

CLEVELAND—(By Associated Press)—The theory that Louis "Boss" Rosen, Cleveland bootlegger and Adolph Adelson, 28, Philadelphia, his brother-in-law, were killed by imported gunmen, was abandoned by police who today concentrated their search on three known members of a "hijacking" ring that was a part of the underworld. Pictures of the three men were picked from the Bureau records by detectives who declared their descriptions were those of three men seen near the Rosen and Adelson home from an ambush early Thursday. Their death was the outcome of a feud between bootleggers and "hijackers" in which Rosen had no connection, police said.

Two big syndicates are warring to monopolize the alcohol traffic, federal officers disclosed.

Neither of the three men had been home since the shooting. Police say they are sure to have enemies within the underworld and sooner or later their feud will turn them up. They have been led for the hijacking, which is known as a racketeer formerly associated with members of the gang which murdered William C. Sly and George L. Fanner, prominent Cleveland manufacturers, in a

### FEARS OF REVOLUTION ARE HELD GROUNDLESS

ROME—Reports of Fascist fears of a revolutionary movement appear to have been greatly exaggerated abroad.

There is nation-wide unrest, however, and the War Volunteers' association today sent broadcast a message to the country, urging calm.

It is useless to discuss about who is to blame for the unrest, the organization declared. "The blame is to be found exclusively in weakened faith in spiritual unity, which is the only force of a civilized people," the manifesto says.

### COOLIDGE TAKES SIDE IN SPLIT

Factions in Rumpus Over Extra Session

WASHINGTON—(By United Press)—The first split between the conservative and liberal wings of the Republican party in the new congress has drawn President Coolidge's support to the conservative side.

When Mr. Coolidge let it be known definitely that he had no intention at this time of calling an extra session of the new congress to take up pressing legislation to the Republican program his announcement came immediately upon the heels of the statement of Senator Borah, outstanding Republican liberal, that an extra session should be called.

Before Borah had announced

### MEN LEAVE HOSPITAL

Driver Flees Scene After Damaging Machine

Three automobile smash-ups in which three men were painfully cut and bruised and a like number of cars were partially demolished, occurred near the city Friday afternoon and night.

Carl Houser, of Springfield, Nolan Cutman and Emmett Stocker, both of Detroit, Mich., were taken to the City hospital about 9:30 p. m. Friday with serious cuts and bruises, following a crash on the Findlay-rd one mile northeast of the city.

Houser and the two men were driving south in a Studebaker chassis when the car swayed to the wrong side of the road, directly in the path of an automobile driven north by J. H. Hankins, of Springfield. Hankins crashed into the middle of the chassis and turned it over in the road.

Both machines were partially demolished, Houser and his companions who are said to have been violating a state law at the time of the accident by riding three

### Woman Gives Life Saving Her Husband

ATLANTA, Ga. — Mrs. Robert Stewart, who fought a gun battle with a band of bootleggers and prevented the kidnapping of her husband, the "ridding parson" died at a local hospital today.

Mrs. Stewart was brought here by her husband after the attempted abduction and shooting which occurred at their home at Drake-town, Ga.

She had been shot thru the legs by one of the bootleggers after two of the band had been wounded by shots she fired from her husband's revolver.

Rev. Stewart told officers he had recognized five members of the gang which attacked him and it is understood that warrants have been issued at Drake-town for their arrest.

He said the men were bootleggers involved in liquor raids which he had directed in Haralson-co.

### ITALY IS QUIET

ROME—Official circles here denied today most categorically what was characterized as the first news regarding the situation in Italy published in some newspapers abroad. Although admitted there is a certain amount of tension in the political atmosphere just now, no special precaution of any sort or kind are required, have been taken or are foreseen, it was declared.

MOVEMENT DENIED

ROME — "Reports of movements of troops and battleships to the frontiers are absolutely without any foundation whatever," said an official statement issued to the United Press by the Italian foreign office today.

### THEFT IS SIXTH IN 3 MONTHS

S. Pine-st Operator Held up by Two White Men

### DESCRIPTIONS OBTAINED

Revolvers to Be Carried by Railway Employees

Police scoured the south end of the city until long after midnight Friday in a futile attempt to apprehend two unidentified white men who held up and robbed H. B. White, city street car operator on the S. Pine-st line, of \$20.65. The robbery occurred shortly after 10 p. m.

Friday night's robbery brings the total number of street car holdups to six during the past three months. More than \$200 has been lost by the company during this time, without one of the three negroes and two white men who are known by the descriptions to have perpetrated all the holdups having been caught.

Following an announcement made by the company three weeks ago that all street car operators on city lines would be supplied with pistols, street car robbers remained inactive until Friday.

Failure on the company's part to take the threatened action is thought to have culminated in Friday's robbery.

F. A. Bundy, head of the railway company here, stated Friday

### SHERIFF HELD FOR ASSAULT ON MARSHAL

HUNTINGTON, W. Va.—Sheriff Don Chaffin of Logan-co was at liberty today under \$5,000 bond charged with assaulting a deputy U. S. marshal on election day.

A. A. Williams, mayor of Man, W. Va., held on a similar charge, was released on bond. They will be given a preliminary hearing on Dec. 15.

The warrant charges that Sheriff Chaffin endeavored by threats and force to intimidate Hugh Dwykes, a government officer.

Chaffin also is under bond pending an appeal to the federal court after he was convicted of conspiracy to violate the prohibition laws and sentenced to pay a fine of \$10,000 and serve two years in federal prison.

### SATCHEL PLAYS PART IN CASE

Defense Insists Doherty Loan Was Friendly Act

LOS ANGELES—(By Associated Press)—The "little black satchel" of the senate oil investigation still loomed prominently on the stage of the government's Elk Hills case cancellation suit as arguments were resumed in federal court today, but it was playing a dual role. Because it once contained \$100,000 in currency loaned by E. L. Doherty to former Secretary of the Interior Albert B. Fall, the little satchel became a symbol of the government's allegation that the loan and contracts it seeks to cancel

### CHARGE STAMPS ARE FORGED

Alleged Leader of Counterfeiting Plot Held

### THOUSANDS ARE FLOATED

Friends Paid Commission for Passing Paper

CLEVELAND—(By Associated Press)—J. V. Zottarelli, prominent attorney here, was arrested today by federal secret service agents on a warrant charging him with possessing, uttering and publishing counterfeit war saving stamps.

He has been the ring leader, according to federal men, of the Cleveland headquarters in a nationwide plot that was aimed to circulate millions of dollars worth of the securities, so cleverly forged that even treasury department officials were misled for months.

Zottarelli was arrested at the Union depot as he stepped from a train on which he had returned from Washington after a business trip of several days. Secret Service Agent William Harper and City Detective Charles Cavola made the arrest.

When taken from the train Zottarelli was not told on what charge he was wanted, although the warrant, together with another

### SHOCK CAUSES DEATH

George R. Carter, Merchant, is Accidentally Shot

One 16-year-old boy dead, the victim of a stray bullet accidentally discharged from a gun in the hands of his father, and a Lima businessman injured, about the face as the result of an accidental shooting by a hunting partner, in the hunting toll exacted Friday and Saturday.

Charles Layton, 16, died at 4:30 a. m. Saturday, one hour after he was shot in the right shoulder by his father, R. L. Layton, who caught the trigger of a loaded gun on a weed after vaulting a fence which the boy had crossed a second before.

ON FARM

Father and son were hunting on the Layton farm, four miles south of Lima, and at the time of the accident were pursuing a rabbit which the father had shot at and missed. It had taken refuge among the uncut stalks of a small corn field in the rear of the farmhouse.

Immediately following the accident the Williams and Davis ambulance was called to rush the lad to a hospital. He died while enroute to Lima, and the ambulance returned to the Layton home and then proceeded to Cridersville, where the body was taken to the Schaefer Funeral home.

A physician who examined the wound after the boy's death, asserted that the shot was not directly responsible. Young Layton had been in falling health for

# \$50.00 PRIZE CONTEST

This is one of the easiest, most dignified contests ever put on in this city. There is no red tape or rigid regulations connected with it. In fact there are none of the restrictions usually attached to similar offers of cash prizes.

Strictly speaking, this is really not a contest. It is a merchandising plan to assist in obtaining buyers for automobiles and at the same time, offers readers of The Lima News an opportunity to earn worth-while cash awards.

NO CHANCES

NO RED TAPE

NO RIGID REGULATIONS

THE PLAN!

In brief this is. Many of your friends are thinking of buying an automobile. Many more need only a little persuasion to convince them of the advantages of having an automobile. In the course of ordinary conversation, it is an easy matter for you to urge those friends to buy their Ford automobile from Timmerman's before Dec. 17th, this year. When you have done this, send in their names on the coupon provided for the purpose, to Contest Dept., Timmerman Motor Sales.

On December 20, judges and auditors of the Lima News will start compiling list of contestants and check up the number of prospects submitted by each who have purchased a Ford automobile from Timmerman's. Points will be awarded for each purchase made by contestants' prospects and prizes awarded to those having the greatest number of points.

An additional prize of \$5.00 will be awarded to each contestant for every automobile sold by or her prospect, whether contestant be a capital prize winner or not.

This is a worthy, "honest-to-goodness" proposition; a splendid opportunity to earn money—a real chance to show your progressiveness. Get in it now!

## POLITICIANS? Yes -- HOME-FAKERS! First

Being a politician is one thing -- and a home-maker quite another.

Yet those are the achievements of three American women, two of them having been elected chief executives of their states, and the third as a congresswoman.

And at the same time a fourth woman, who still carries her title of Miss, broke thru the political ranks for a victory as a congresswoman.

And altho all of them gain political honors by their victories, they all say the care of their homes is first in their minds.

"MA" CANNED PEACHES While the voters were discussing the abilities of Mrs. Miriam Amanda "Ma" Ferguson, Democratic gubernatorial candidate in Texas, she was at home canning peaches and permitting "Pa" Ferguson to do most of the talking.

Yet she carried her state by nearly 100,000 votes.

At the same time, out in Wyoming, Mrs. Nellie Tayloe Ross was elected governor. Widowed only five weeks, her one desire is to carry forward the work of her late husband, Governor William B. Ross, whose unexpired term she has been chosen to fill out.

A mother of three sons, her home has always been a model for the state's capital city.

To be the first woman east of the Mississippi to win a seat in the House of Representatives is the honor the voters bestowed on Mrs. Mary T. Norton of Jersey City, N. J.

Mrs. Norton has been interested in politics but four years. She was not a suffrage campaigner or a feminist.

"I can make pie better than any maid we ever had," was a campaign boast which brought her many votes.

## PRESIDENT FIRM

Sees no Need for Extra Congress Session

WASHINGTON — President Coolidge is convinced that the question of further tax reduction cannot be considered effectively by congress until all figures for the current fiscal year ending June 30 are available to show the actual amount of reduction possible.

In consequence, pressure thus far brought upon the administration to have a special session of the new congress called immediately after March 4 has failed to alter his opinion that such action would be unnecessary and in advisable unless unforeseen developments provide some other and very urgent reason.

It was made clear at the White House yesterday that the president is not to be understood as opposing the assembling of the new congress prior to its first regular session in December 1925, if developments should make an extra session necessary, but that he sees no reason now for such action.

He expects adequate farm legislation to be enacted at the concluding session of the expiring congress and is of the opinion that further "tax reform" which he advocated in signing the revenue act of 1924 should be held up until a scientific basis is provided.

More Than Hundred Homeless Following Conflagration

Jersey City, N. J. — (By United Press) — Jersey City saw today her smoldering fire ruins today and estimated that the smoldering fire in Gammontown yesterday took the following toll:

Damage amounting to \$2,000,000 in an area of four blocks.

Battelle and Renwick's salt Petri factory, a nine story ware house of the American Sugar Refining Co., the Hoppe Paper Box Co. plant and Richard's Chemical works completely destroyed.

One hundred and thirty-five homeless men, women and children woke up in the 11th Regiment armory this morning their dwellings burned to the ground.

Twenty firemen and two civilians were still under treatment for burns and injuries sustained during the stubborn fight which taxed the city's fire fighting facilities to the limit from 9 a. m. to 3 p. m. yesterday.

The customary inspections have been ordered, but it will be at least 24 hours before the ruins are sufficiently cool to permit their being examined in safety.

Chemicals still flare up here and there and firemen kept streams of water playing on the smoldering factory sites today.

Fire lines were drawn around four blocks. Two walls of the sugar refining warehouse threatened to fall at any moment.

Some of the residents of Gammontown, driven from their homes by the fire, were permitted to return this morning.

SNOW AT PORTSMOUTH

PORTSMOUTH, Ohio — The first day of the hunting season in Seloto ushered in the winter's first snow. Police Chief Arthur issued a ban on hunting of several tracts of land within the city complained that hunters were trespassing and shooting on their premises.

## TWO MEN ARE STABBED DURING DANCE HALL FIGHT

COLUMBUS — Two men were held in jail here for investigation in connection with a disturbance in a dance hall last night which resulted in two men being stabbed, one probably seriously.

Harry Finner, one of the two held for investigation, was stabbed in the abdomen when fighting broke out following eviction of an unknown man from the hall. Clarence McCannion, a man for a K. K. Klan publication is alleged to have caused the eviction of the man. McCannion is being held.

Arthur Bad 2 was taken to a hospital with wounds in the head.

Fighting was kept going after four police men tried to break the crowd into the street.

DAIRY INTERESTS SEEK PLACE ON COMMISSION

DELOIT — President Coolidge was asked to enlarge the farm commission he appointed recently to include a representative of the dairy interests, in a resolution passed at the eighth annual convention of the National Cooperative Milk Producers' Federation in session here.

The resolution suggested the inclusion of the federation for the purpose of being telegraphed to the president last night.

All of the members of the federation were in the city and members of the board of directors include E. S. Brown, of Jefferson, Ohio, and J. C. L. Wesson, Ohio.

WOMAN RUN DOWN

AKRON — Mrs. James Cox, 45, was run down and killed by a bus on a busy street today.

SALADA TEA TESTED BY EXPERT

Phy Salada Tea Headquarters in Boston has been with an interesting job. All day long he samples tea and so far has met his objective. He has found that he can sample twenty different blends and still not get tired.

His name is Max Fink, and his title is Tea Tester.

He tastes principally teas from Ceylon, India and Java for these have the largest sales in America and are from these countries that the tea used in the blending of Salada tea comes. It may be had in 100 lb. mixed or green.

Salada tea is put in packages instead of in bulk as is the case with the tea used in the blending of Salada tea. It is a widely appreciated tea that has been for long periods, especially when exposed to the air. Salada tea is in aluminum tins which keep its freshness and purity. This is practically impossible with regard to any bulk tea.

The rapid turnover enjoyed by Salada Tea is another reason for its popularity with the trade. It is which stays on the shelves any longer than normal is tea that will give less satisfaction. Rapid turnover not only insures greater profits on the investment but guarantees fresher and better tea to the consumer.

## DEFICIT CLAIMED BY REPUBLICANS

State Campaign Costs G. O. P. \$147,698.28

COLUMBUS — (By Associated Press) — Lasting expenditures of \$147,698.28 on behalf of its candidates in the Ohio campaign, the Republican state campaign committee revealed a deficit of \$69,895.79 when the party's campaign expense account was filed with Secretary of State Brown.

The Democratic accounts showed expenses of \$217,532.27 and receipts of \$217,532.27, leaving a balance of \$21,753.27.

Governor Donahoe's appeal for campaign contributions netted \$16,500, the statement showed. The governor said that he had returned contributions from persons interested in getting relatives pardoned, job seekers and certain contractors and building material companies.

Among persons contributing \$500 to the Democratic fund were Thomas E. Dye, Democratic state chairman, George C. Maxwell, Columbus Paul Dye, Urbana, Dr. Robert F. Henderson, Urbana, Dr. E. Horoson, Toledo, E. C. Baner, Dayton, Peter F. Klein, Cleveland, A. S. Langenderfer, Toledo, and H. Schmitt of Cleveland. Approximately 300 contributors to the Donahoe fund gave one dollar each.

Walter White of Cleveland gave \$3,000 to the Republican fund. Contributors of \$250 each included J. O. Mills, J. H. Hartford and R. M. Sandler, all of Columbus. Samuel E. Stevenson, Jackson, and Samuel Mathews of Cleveland, contributed \$2,000 each. Dr. R. B. Drury, of Columbus, gave \$1,000.

One thousand dollar contributors were Fred W. Warner, chairman of the Republican state central committee, Harry L. Davis, Miles Y. Cooper, Cincinnati, J. E. Galvin, Fremont, William Cooper Procter, Cincinnati, N. E. Cook, C. S. Yethers, A. Augustus Carmel, Thompson, Michael Gallagher and A. C. Ernest, all of Cleveland.

Harry M. Daugherty, former United States attorney general, donated \$200.

HEALTH HEAD WILL SEEK APPROPRIATION

COLUMBUS — Claiming that the state is spending several hundred thousand dollars each year to conduct tests for tuberculosis in cattle, Dr. J. E. Moulton, director of the state department of health, will ask the next legislature for an appropriation not to exceed \$50,000 to conduct monthly tuberculosis clinics in every county in the state.

Dr. Moulton's announcement was made before the conference of Ohio Health Commissioners which closes a week's session today.

The director pointed out that persons in early stages of the disease rarely consulted a physician and asserted that the clinics will double the chances for recovery for thousands of Ohioans each year. That is worth \$50,000 to any state," he said.

Dr. Moulton hopes to establish three units each with a diagnostician and an adequate nursing and clerical staff.

NEW YORK — (By United Press) — Nine hour overnight air mail service from New York to Chicago and in eight hour service over the same route eastward, due to prevailing winds, will be inaugurated early in April of the coming year.

Carl F. Fack, general superintendent of the air mail division, post office department, announced the new service yesterday after completing a report to Colonel Paul Henderson, second assistant postmaster general.

The report included detailed plans for the illumination of the 530 mile course and provided for emergency landing fields. The new service will be supplementary to the trans-continental service which has been in successful operation since July 1 between this city and San Francisco.

It was announced last night that the eastern air mail terminus will be Hadley Field near New Brunswick, N. J. This field has the advantage of being free from the fog common there to New York City and of being 50 miles nearer the Chicago end of the route. A fire-ship hanger will be erected.

## Realtors Know Which Want Ads Are Best

Realtors, the men who are directly concerned with, and most interested in, the resultfulness of Want Ads, endorse Lima News Want Ads. Their confidence is the result of experience; they have found that the quickest and best, and therefore the most profitable, results are produced by consistent use of Lima News Want Ads. This is true of all classes of property, located anywhere.

H. J. Strasburg, Steiner-bldg, finds buyers for his West end property by this method. Here is one of his Want Ads, used on a recent date:

## FOR SALE

6-room modern house now under construction in west end, within walking distance of city, six floors full basement good furnace, numerous built-in features, \$25,000 to \$30,000.

H. J. Strasburg

Realtor and Builder 211 Steiner Bldg. Main 6227

Mr. Strasburg gave this report of results: "We sold a \$7,000 residence, one of the prettiest homes in the West end, as a direct result of our Lima News Want Ad on Sept. 28th. We have also sold a number of smaller residences during the summer to News prospects, so we are thoroughly convinced that Lima News results are the best results.

## Vote Slackers

Despite the intensive national campaign to "get out the vote," it's now estimated that only about half of the eligible voters went to the polls and cast their ballots.

More voted than in 1920, to be sure—several millions more. But the population increased materially in the last four years. The gain in voters was offset by the gain in citizens entitled to vote.

Now, what's the reason for this continued drift toward government by minority—a condition, which, many experts claim, already has arrived? They claim that more than half of the eligible voters stayed at home instead of waiting for president this year.

One possible explanation is that the number of people entitled to vote has been exaggerated. Such is improbable, to any material extent. Even so, it doesn't eliminate the undeniable truth that "vote slacking" hasn't been checked.

Getting people to vote is a double job; inducing them to the polls in one thing; inducing them to register is another. It amounts to a problem of enticing them to come to bat twice. But even this isn't the major cause.

When a problem such as "vote slacking" cannot be explained by psychology, by indifference or by lack of patriotism, it's a pretty safe bet that in the final analysis it is a matter of the pocketbook.

Most of our political, social and economic problems simmer down to matters of money.

It is probable that millions of people stay away from the polls for this reason:

**THEY FEAR THAT REGISTERING AND CASTING BALLOTS WILL PUT THEM ON THE LOCAL TAXATION LIST WHICH MANY HAVE MANAGED TO AVOID.**

Our cities are gorged with residents, who "beat the law" in the matter of state, county or municipal taxes. The tax slacker's sense that if their names get on the record they will shortly receive a tax blank for listing their savings accounts, household furniture and other personal property which so many of them have concealed from the levy.

Are the majority of "vote slackers" simply "tax slackers"?

The problem of getting more citizens to vote in the national elections is a constant problem. The error in 1924 was in campaigning at the last moment.

If we want to induce them to vote in 1928, a campaign to that end must be waged steadily for the next four years. "Vote slacking" is a big problem. And no big problem can be solved by overnight education. Reformers know this is a fixed and unalterable law. Time and patience are necessary.

## Don't Buy Stocks On Margin

About two million and a quarter shares of stock were purchased on the New York stock exchange Tuesday. In the first half hour of Wednesday 350,000 more shares were purchased. Over eleven million have been traded in since election. The public is in the market with a rush and stocks are going skyward.

It is a situation the wise will keep out of and few of us are wise. It is a storm torrent on which it is not safe to put off in the frail craft known as a margin. Buy, if you will, shares in an enterprise you think is sound, prosperous, and likely to continue to prosper in this period of revival which we are entering, if the experts are right. It would have been better if you had bought when they were lower, and it may be better to wait until they are lower. But if you do not

care to wait, pay for what you take; don't gamble with more than you can pay for.

It is tempting to see stocks soaring. You think that if every one is buying stocks they must be right and you had better get some, too. You forget that if two million and a quarter shares were bought, two million and a quarter were sold. Who is selling all these stocks? The public is buying. But some one is selling and that some one is the man who bought his stocks when you didn't want them and is getting out of them now when you do.

Stocks may go on up to a higher level than they have reached. There are some stocks which are good investments at the present price, but the great volume of sudden buying is not actuated by calm judgment and when a climax is reached there will be an uncomfortable fall.

Don't buy stocks on margin when two million and a quarter shares are traded in on one day.—Chicago Tribune.

## Future Danger

In the recent election the country faced the prospect, the possibility at least, that there might be neither a President nor Vice President chosen to take over the administration of the Government on March 4, says the Cincinnati Enquirer. The Constitution under such circumstances fails to provide for the succession.

The result of the election established the fact that wisdom still directs the judgment of the people. But the calamity could happen. The effort to bring it about, with all subsequent confusion and economic chaos, was strenuously and brazenly made. Another effort at some time in the future might be successful. The lesson should be taken to heart. It should induce to prompt action for the correction of this and other defects in the Constitution.

It is gratifying to know that an amendment designed to provide against this danger and others, before the next presidential election, is pending in Congress. It has received the approval of the Senate and is before the House with a favorable recommendation by the Committee on Election of President. The House promptly should approve it, that the amendment may be submitted to the states as soon as may be possible. Such danger should not again be permitted to menace the public weal.

The amendment under consideration authorizes Congress to provide by law what officer of the Government shall act as President in the event that there is no regularly chosen Chief Executive to succeed the outgoing President.

Quite as important, under other provisions of the amendment, the date of the inauguration of the President would be changed from March 4 to the third Monday in January, and the beginning of a new Congress to the first Monday in January following the election. This would require the assembling of Congress in two months instead of 13 months after it is elected. It would do away with the useless intervening short sessions of the old Congress, often repudiated and discredited. Such new Congress, representative of indorsement by the people, in the event of a necessity to designate a President, properly and justly could meet the issue of such emergency.

Whether the Norris amendment is the best that could be devised is a matter for the consideration of Congress, but that some amendment designed to correct the Constitution in these respects greatly is to be desired should appear obvious to all earnest students of government.

Jackie Coogan has gone to Russia, which is an awful place for any little boy who likes to eat.

**Baby Tortured Day and Night by Eczema**  
Resinol Stopped Itching and Healed Sick Skin

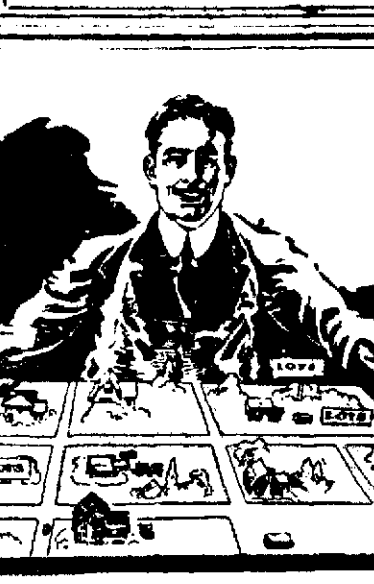

Brooklyn, N. Y., May 10:—"I thought it might interest you to know how much Resinol has done for my baby. Her face was covered with scabs and the itching was so severe I had to keep stockings on her hands to keep her from scratching. I had to be up at night as it bothered her so she could not sleep. Two doctors, one of them a skin specialist, told me she had eczema. I tried several remedies, but nothing helped, so when I read in the paper about Resinol, I thought I would give it a trial. I can't praise it enough, for it has done wonders for the baby's skin and she sleeps all through the night now. I would advise anyone with a similar case to try Resinol Ointment."
